

Observation report

Observation date: 14.12.2014

Incident report:

I had an observation on Sunday 14th of December 2014. As normal, I turned up for my class at 8.00 am. Dr Mahmoud, Dr Asad and Dr Abdul Jaleel showed up at my class for observation but unfortunately found no students. I offered for them to come the following day but they said that it wasn't necessary. We had a long discussion on teaching methods and various other topics.

As for the reasons for students not turning up, then this is a matter that should be raised with the students.
